

Media Bazaar

A solution presented by Group 4

(Ahmed Al Harthy, Evgeniy Terziev, Georgi Minchev, Karina Kozarova)

Introduction

Or how it all started..

- Who are we?
- Purpose of our solution

Why two different solutions?

Desktop application

- Used by managers and administrators
- Can create new accounts
- Employees only use it to see stocks info

Website

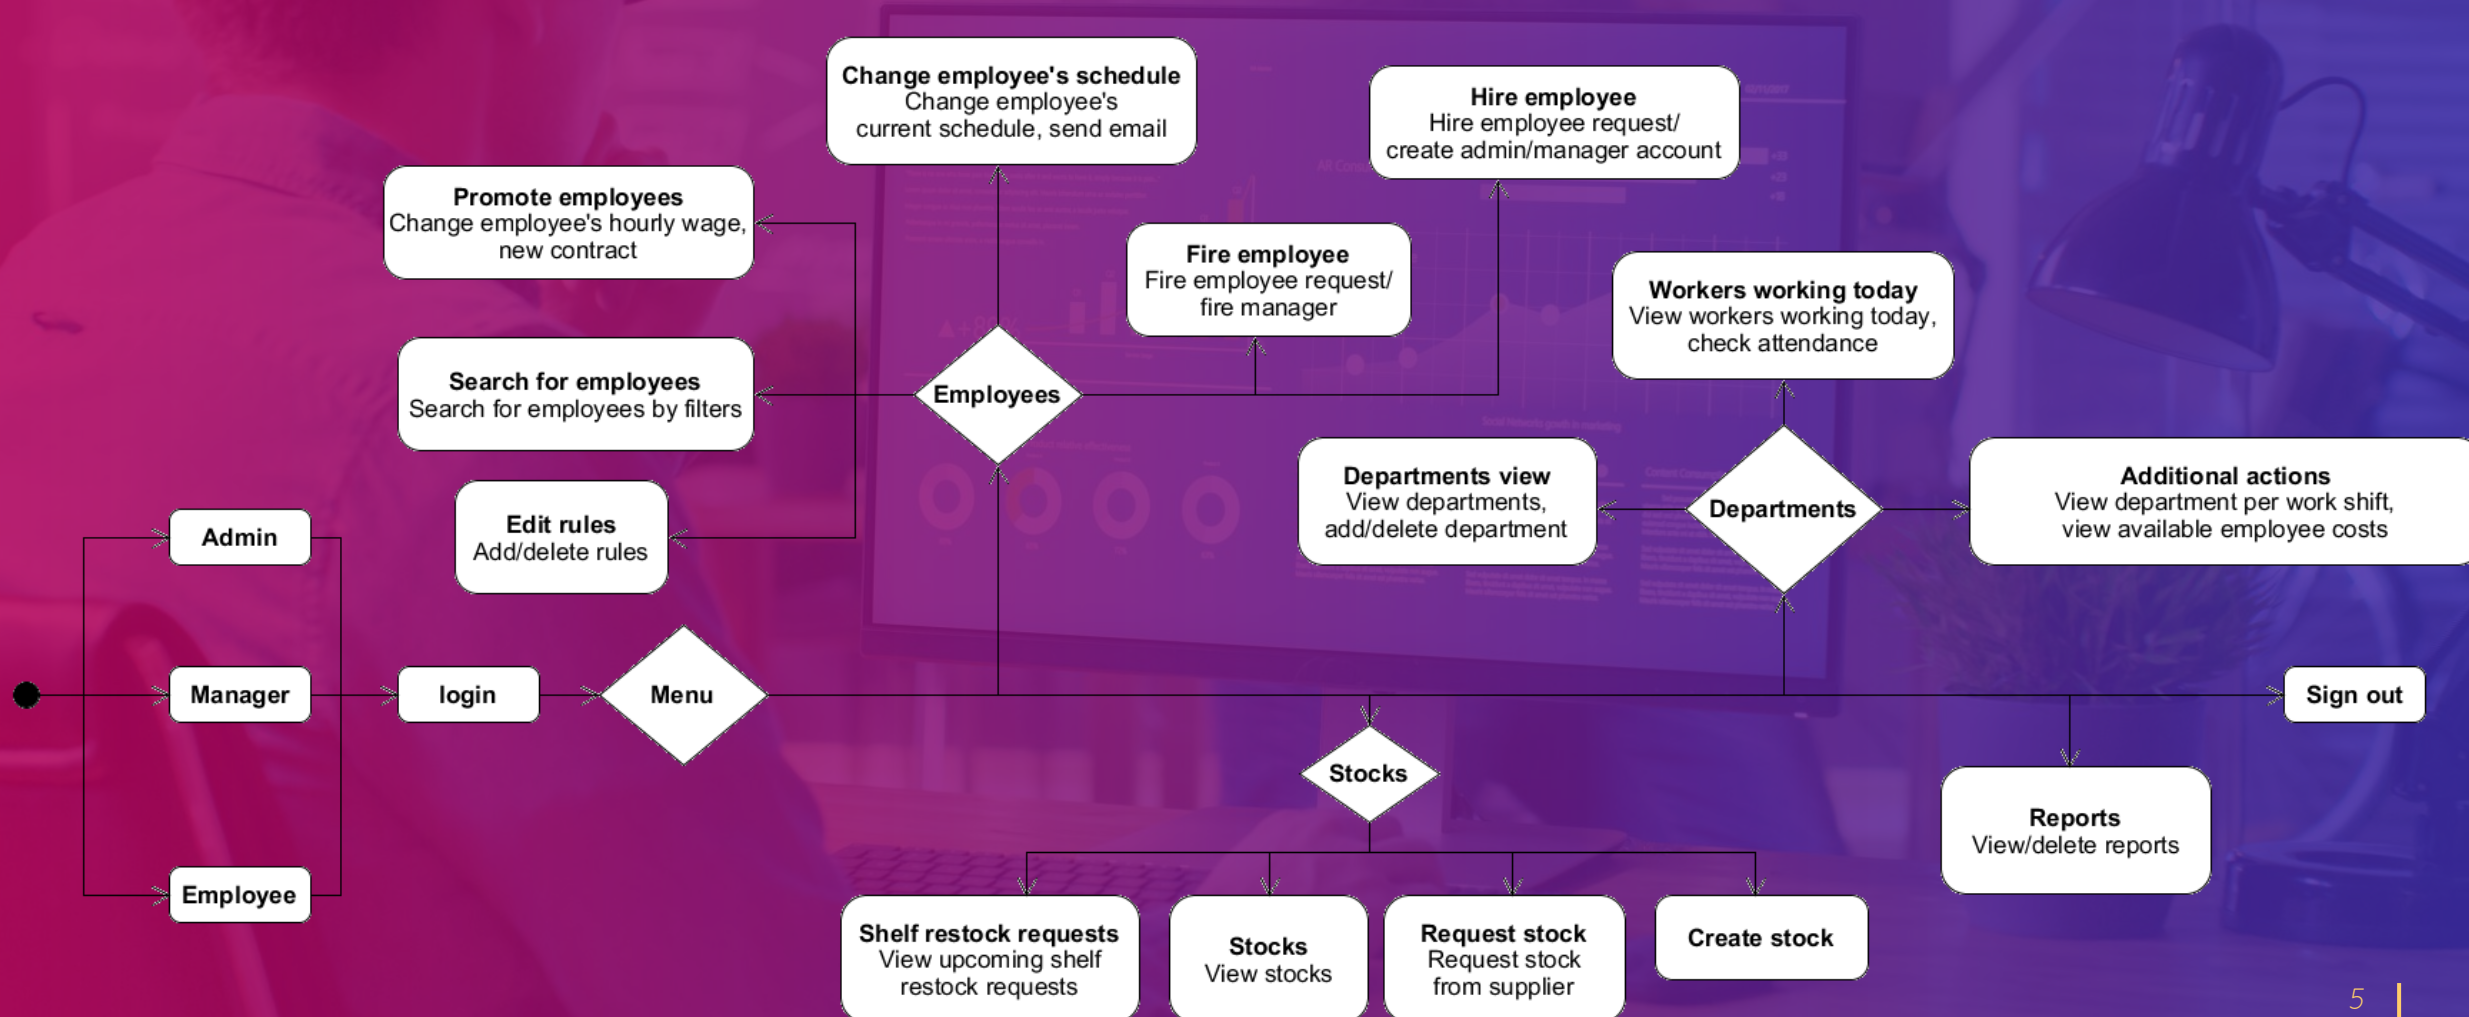

- Used by all employees
- Only login, no account creation

Functional requirements

Desktop application + Website

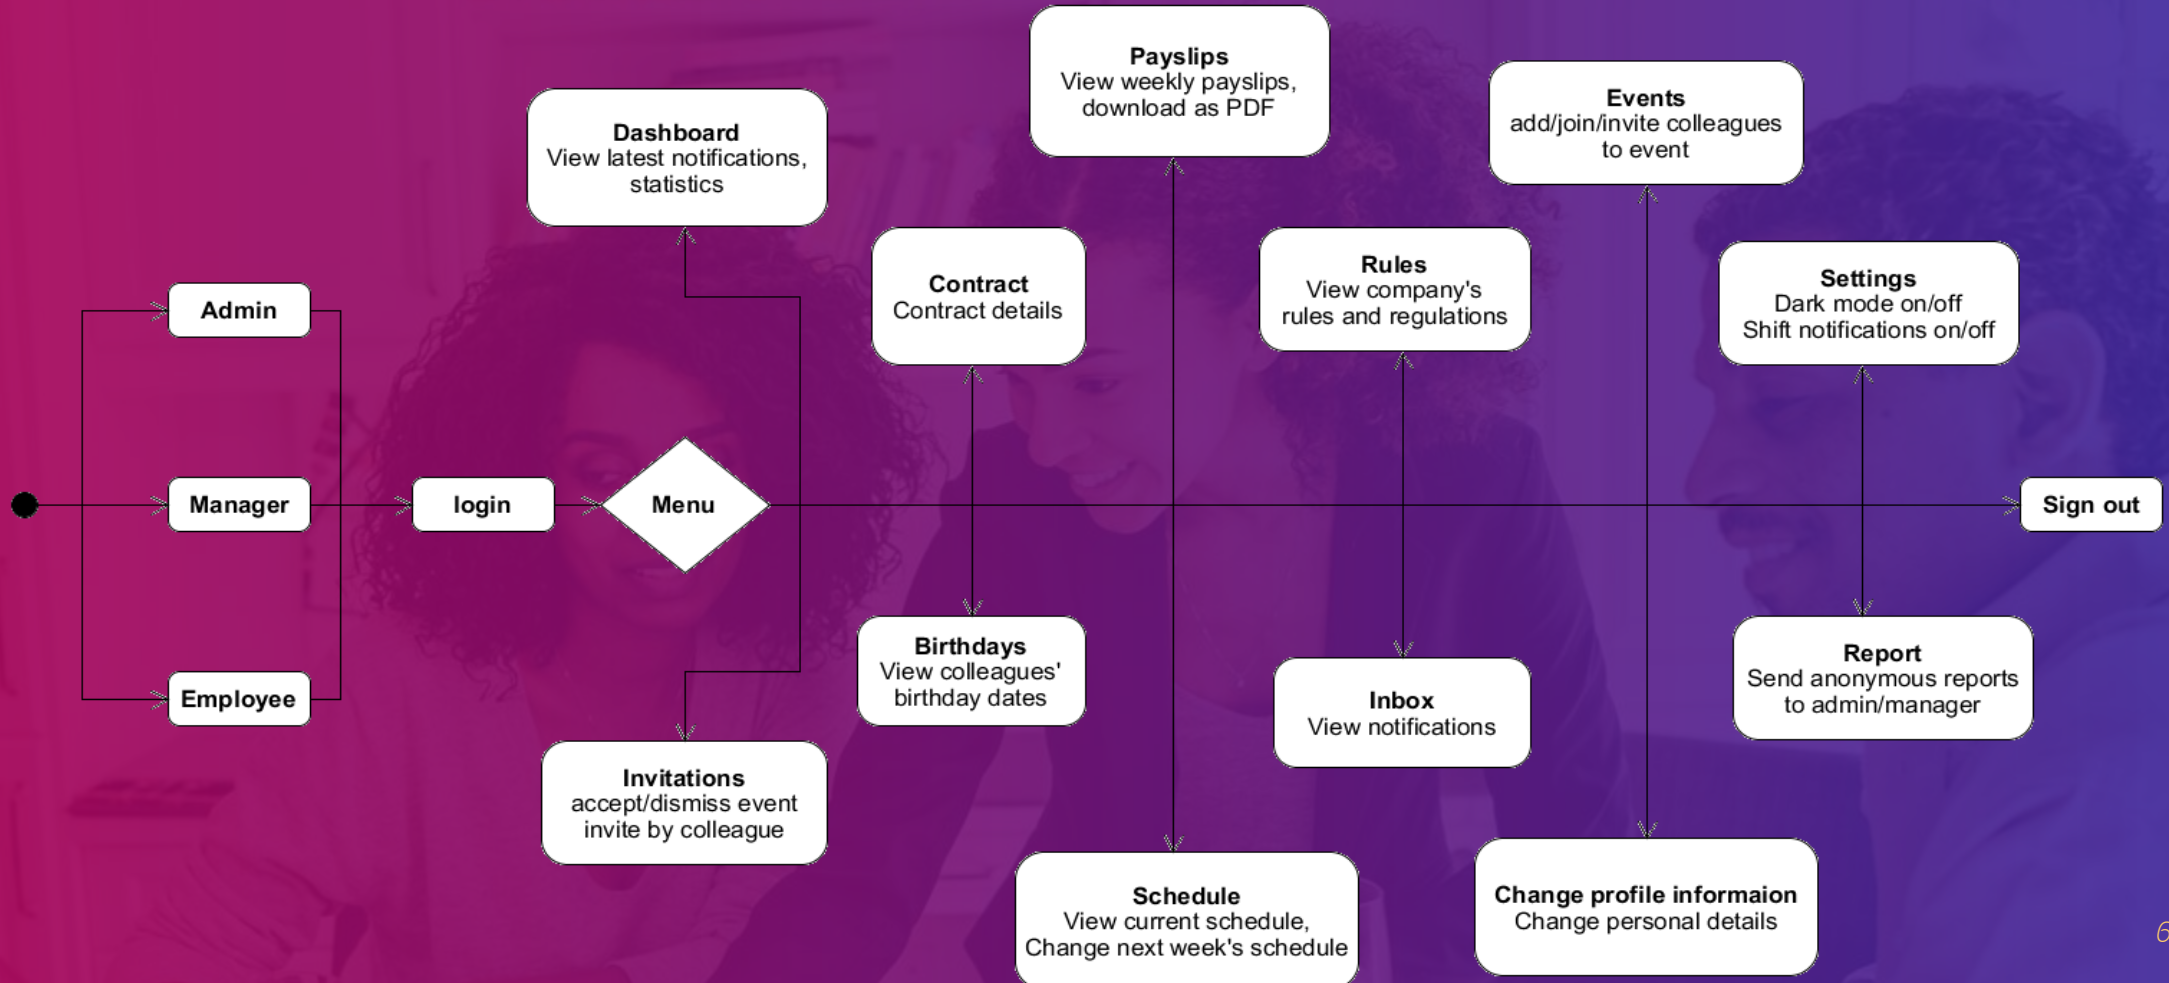

Desktop application

2020

Website application

2020

Non-Functional requirements

Or how we achieved a great final product 😊

What did we focus on?

2020

Stable

Scalable

Maintainable

Clean code

Following conventions

User-friendly

Modern UX and UI

How did we work?

2020

Communication

Slack + Discord + Teams

Sprints planning

GitLab boards

Online Documents

Google Drive + Docs + Slides

Two code repositories

Time estimates

Deadlines and time estimates for each task

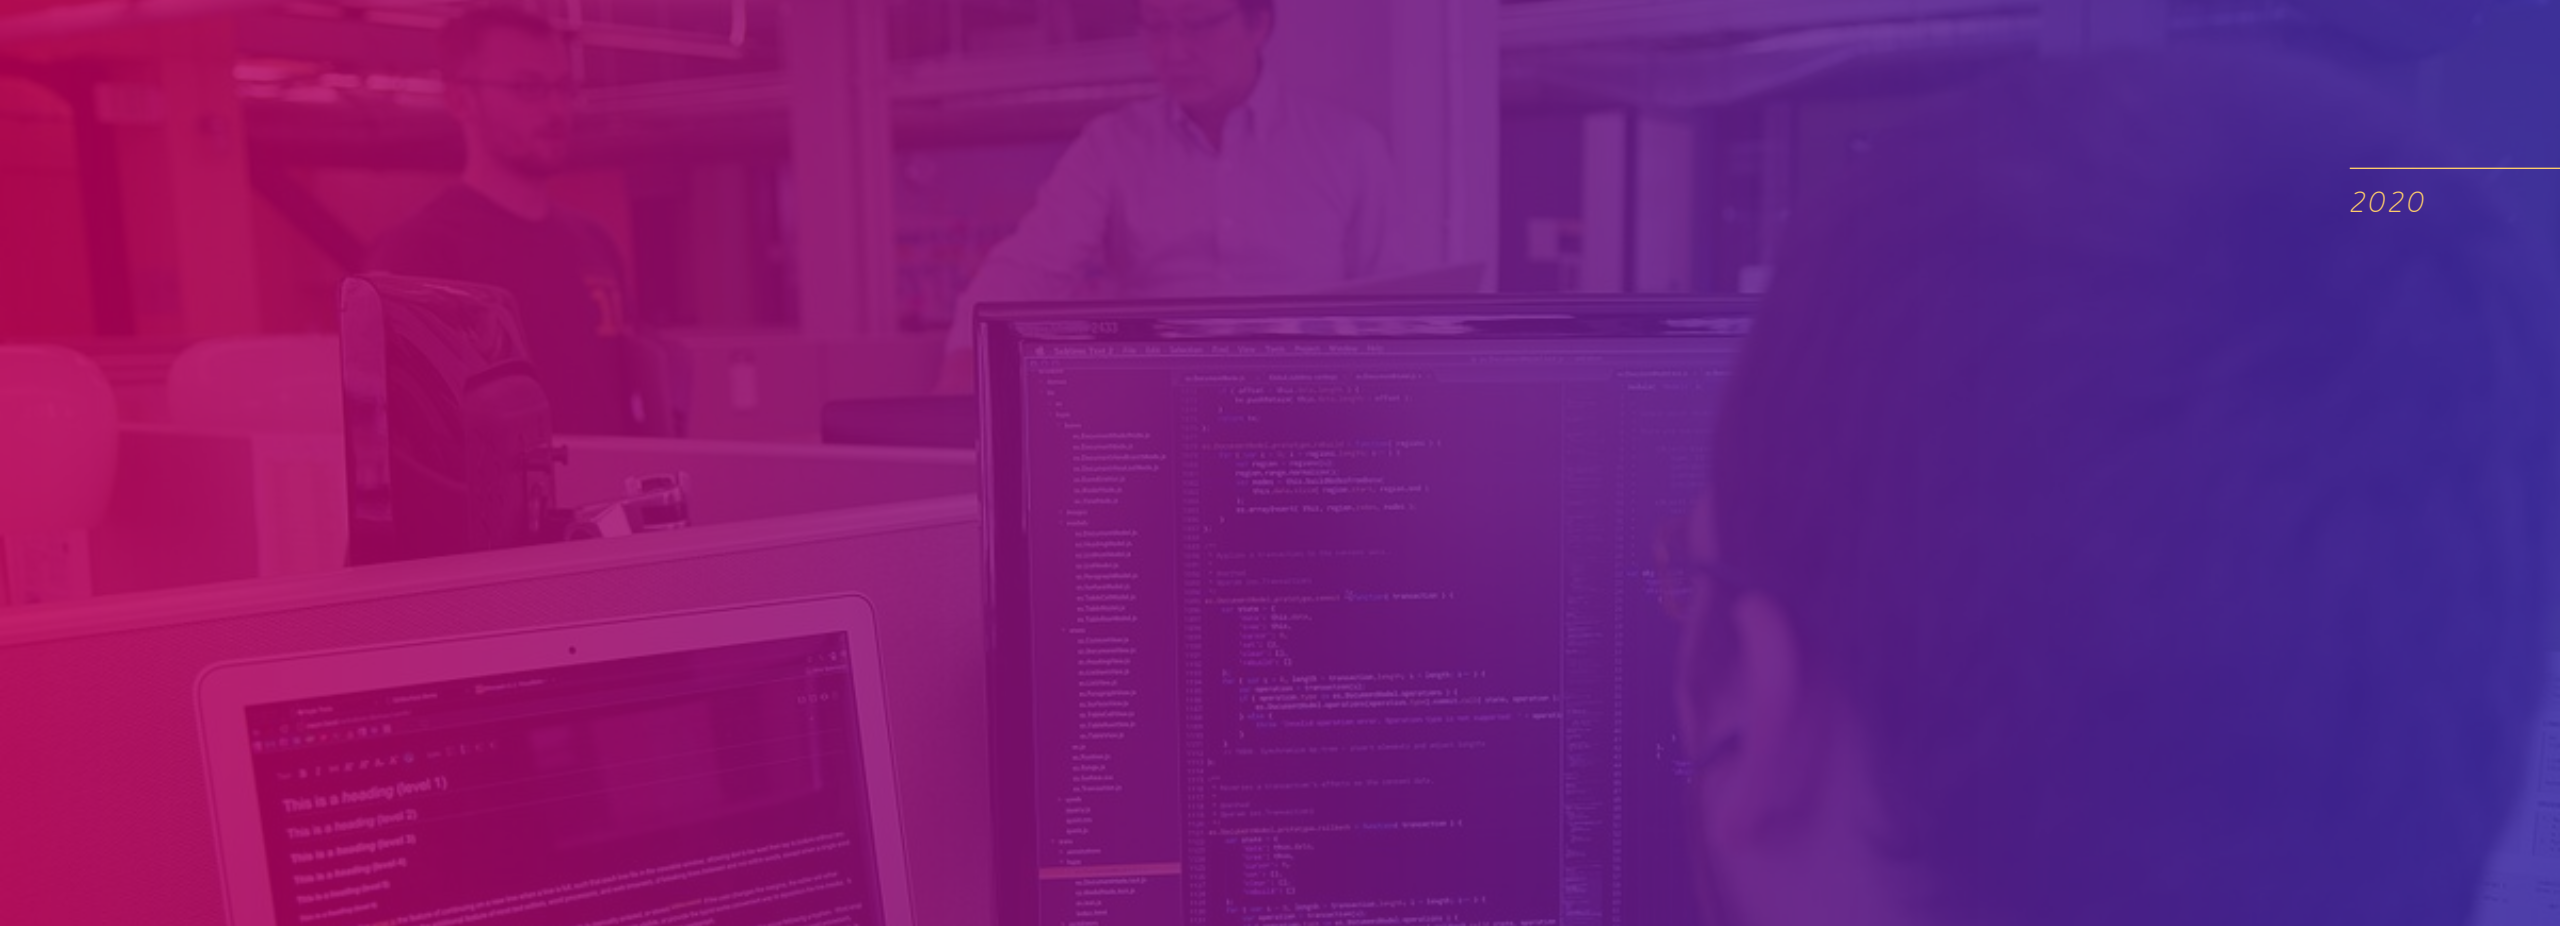

Bugs

Backlog app

Together yet separate

Everyone has a task they are responsible for, yet we help each other

Demonstration time!

Brace yourselves.

Thank you!

Q&A time
